

We are writing to let you know that we would like K-LOVE radio to continue to service our community on 89.1FM and 105.5FM (depending on where in the Phoenix, AZ area you are). My family listens to one or both of these frequencies every day.

With as many listeners as K-LOVE has in the Phoenix area, it would be a very big disappointment to a decent sized percentage of the valley no longer able to enjoy this service.

We believe that this station has a positive effect on this community and would not like to see it cancelled. This station gives families a clean alternative to so many stations that are not family friendly.

Thank you for your time

Phil & Angie Klein
